

SevaAI™

India's Intelligent Social Impact Network

Connecting People, NGOs & Urgent Needs in
Real Time

The Problem: Fragmentation & Delay

The Silent Crisis in India's Social Sector

Coordination Chaos

Fragmented efforts between NGOs and government lead to critical delays in disaster response and medical emergencies.

Resource Mismatch

68 Million tons of food waste annually while millions face hunger due to lack of real-time redistribution.

Trust Deficit

Absence of robust verification and impact tracking mechanisms erodes donor and volunteer confidence in social causes.

Manual Bottlenecks

Over-reliance on manual outreach and legacy systems slows down "last-mile" aid delivery when every second counts.

The Solution: SevaAI

The Operating System for Social Good

Spot

AI-driven proactive detection of social needs across data streams.

Evaluate

Intelligent assessment of urgency and resource requirements.

Verify

Multi-layered authenticity checks to ensure legitimate aid.

Act

Coordinated real-time deployment of NGOs and volunteers.

Proactive Intervention

Resource Optimization

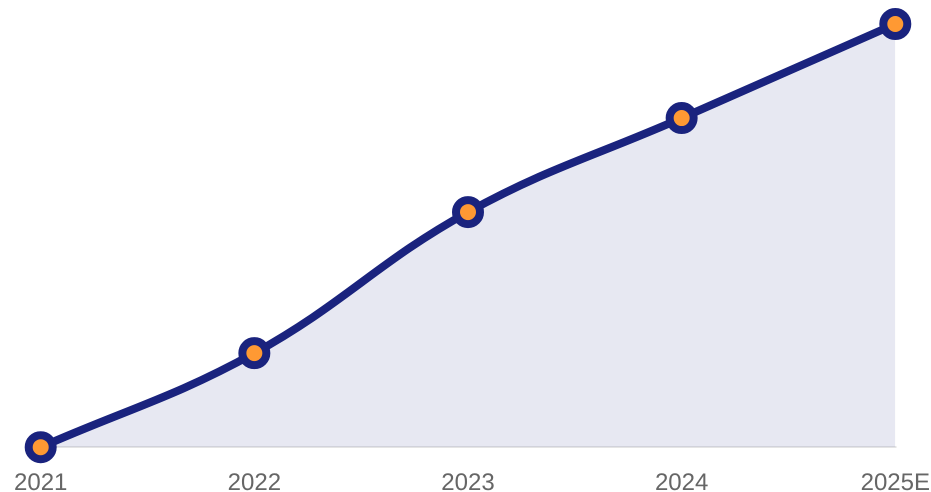

Measurable Impact

Market Opportunity

Tapping into India's \$300 Billion Social Sector

\$300B

Total Social Sector Funding

Source: India Philanthropy Report 2025

13% Annual Growth

Steady increase in philanthropic and social sector funding over the past five years.

CSR Mandates

Mandatory corporate spending driving demand for transparent and verifiable impact platforms.

Digital India Leverage

Explosive growth in smartphone penetration enabling real-time volunteer mobilization.

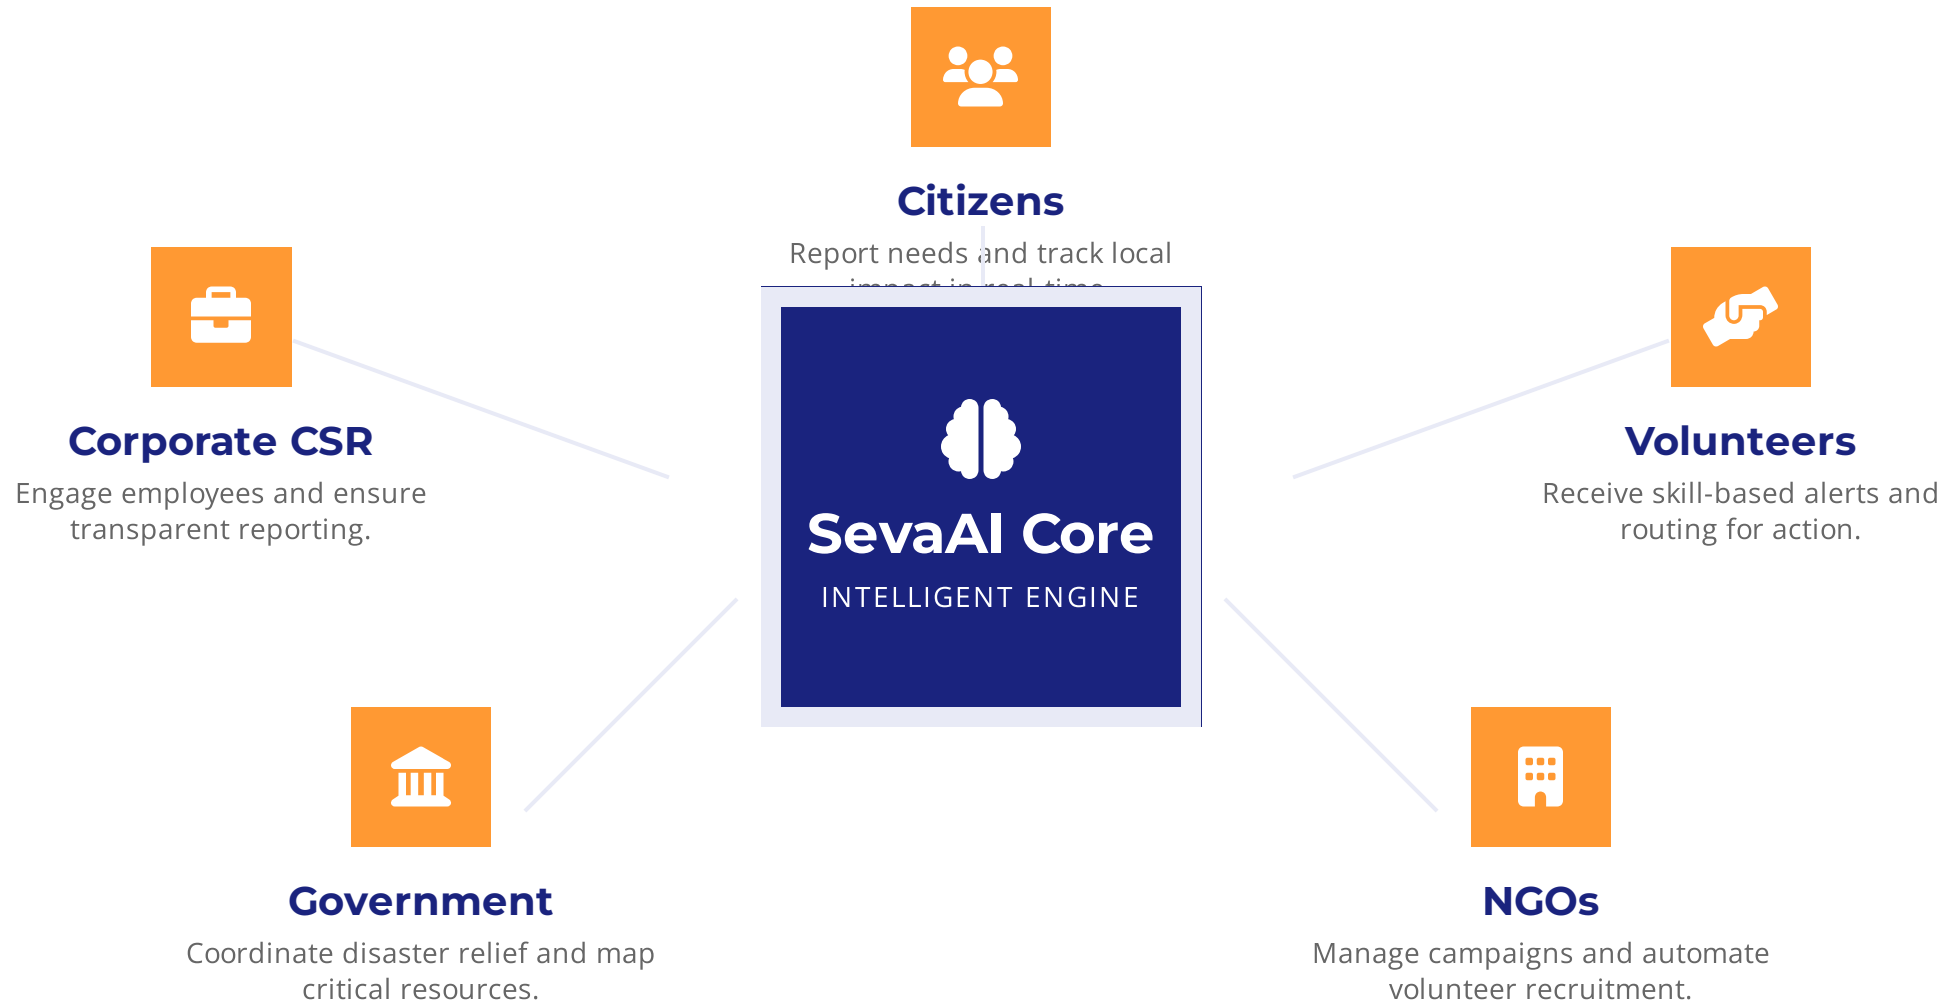

Youth Potential

Millions of Gen Z and Millennials seeking structured avenues for social contribution.

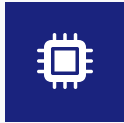

Product Architecture

A Seamlessly Integrated Ecosystem

The AI Engine: Intelligence at the Core

Proprietary Technology for Social Transformation

NEED DETECTION

NLP | COMPUTER VISION | GEOSPATIAL AI

Proactive identification of crises via real-time monitoring of social media, news, and IoT sensors to detect food shortages or disasters.

NGO MATCHING

GRAPH NEURAL NETWORKS (GNN)

Intelligent recommendation system that connects verified needs with the most relevant NGOs based on capacity, expertise, and proximity.

VOLUNTEER ROUTING

MULTI-OBJECTIVE OPTIMIZATION

Real-time logistics engine for volunteer dispatch, optimizing for travel time, skill-match, and urgency of the social requirement.

IMPACT INTELLIGENCE

CAUSAL INFERENCE | PREDICTIVE ANALYTICS

Advanced data modeling to measure true social return on investment (SROI) and forecast future social needs for policy planning.

SEVA AI TECH STACK v1.0

Business Model & Sustainability

Diversified Revenue for Long-Term Impact

Corporate CSR

Premium management and reporting tools for enterprises to execute and track CSR mandates with transparency.

Premium NGO Tools

Subscription-based advanced analytics, volunteer management, and grant support for high-impact NGOs.

Impact Consulting

Data-driven strategic advice and impact assessment services for social organizations and foundations.

Govt. Licensing

Partnerships and licensing of AI modules for public service delivery and disaster management coordination.

A self-sustaining model where financial success fuels greater social impact.

Growth & Community Strategy

Awareness, Acquisition & Sustained Engagement

Awareness

- ▶ **Digital** Features in national tech and PR: social impact media.
- ▶ **Influencer Marketing:** Partnering with social impact thought leaders.
- ▶ **Content Pillars:** Impact stories and educational AI-for-good

Acquisition

- ▶ **Campus Ambassadors:** Mobilizing leaders in 100+ universities.
- ▶ **Referral Program:** Trust-based growth through existing users.
- ▶ **NGO Onboarding:** Targeted workshops and integration support.

Community

- ▶ **UGC Campaigns:** Sharing #MySevaAI impact stories.
- ▶ **Viral Challenges:** Gamified social impact competitions.
- ▶ **Skill-Share:** Professional volunteering and training modules.

TARGETING 100,000+ ACTIVE VOLUNTEERS IN YEAR 1

Impact & KPIs: Measurable Results

Year 1 Targets & Social Return on Investment

5.0M+

LIVES IMPACTED

1.0M+

RESOLVED CASES

Key Performance Indicator	Year 1 Target
 Food Saved from Waste	500+ Tons
 Animals Rescued & Rehabilitated	10,000+
 Blood Units Mobilized	50,000+ Units
 Avg. Response Time (Urgent)	< 30 Mins
 Verification Success Rate	> 98%

ALIGNED WITH UN SDGs:

Implementation Roadmap

Strategic Timeline from Pilot to Global Leadership

MONTH 1-3

Foundation & MVP

- Core platform launch
- Pilot in 2 major cities
- Initial AI training

MONTH 4-6

Regional Growth

- Expand to 7 cities
- First CSR partnerships
- iOS App launch

MONTH 7-12

National Scaling

- 15+ cities coverage
- Impact Dashboard live
- Govt. collaborations

YEAR 2-3

Advanced AI

- Predictive analytics
- Full national rollout
- API for 3rd parties

YEAR 4-5

Global Leadership

- International expansion
- Innovation Hub status
- Self-sustaining ecosystem

The Team & Vision

Leading the Future of Social Innovation

MULTIDISCIPLINARY EXPERTISE

Startup Founder

AI Product Architect

Product Manager

UX Researcher

Brand Strategist

Growth Marketer

Social Impact Consultant

VC Advisor

OUR CORE VISION

"Combining the traditional values of Seva with the transformative power of AI."

Integrity & Trust

Upholding the highest standards of transparency and ethical conduct in social tech.

Compassionate Innovation

Leveraging cutting-edge technology to solve human problems with empathy.

**Let's build a more
resilient and
compassionate India
together.**
